Oil City/ Franklin

OIL CREEK & TITUSVILLE RAILROAD

409 S. Perry St., Titusville
814-676-1733
octrr.clarion.edu

OC&T Railroad's vintage train follows a 1912 route through Pennsylvania oil country as guides tell of people and places that made petroleum-industry history. Riders can spot wildlife from the open gondola car or mail postcards at the only railway post office in the country. Theme excursions include a haunted Halloween train, a holiday ride with Santa and murder-mystery dinner theater.

Photo Courtesy of Betty Squire

TWO MILE RUN COUNTY PARK

Off Routes 417 & 428,
between Franklin, Oil City and Titusville
814-676-6116
www.twomile.org

Two Mile Run County Park is a year-round destination for outdoor recreation. The park's 2,695 rolling acres have 26 miles of trails for hiking, mountain biking and horseback riding. Other attractions include campsites, groomed cross-country ski trails and 144-acre Justus Lake, which is stocked with both cold-water and warm-water game fish. Crosby Beach offers swimming and boat rentals.

DEBENCE ANTIQUE MUSIC WORLD

1261 Liberty St., Franklin
814-432-8350
www.debencemusicworld.com

Nostalgia echoes through Debence Antique Music World, a museum that celebrates the history of mechanized music, from the Gay '90s to the Roaring '20s. You'll hear plinking player pianos and tinkling music boxes as you explore more than 100 musical machines of yesteryear. The collection includes nickelodeons, calliopes, carousel band organs and Victrolas. Call for operating hours.

OIL CREEK STATE PARK

Route 8, north of Oil City
814-676-5915
www.dcnr.state.pa.us

While exploring 7,026 acres of forested hills, hollows and wetlands at Oil Creek State Park, it's hard to imagine the area dotted with wells and oil-boom towns. That's why historic markers throughout the park identify important sites of the turbulent 1860s. You'll see them along 52 miles of hiking trails or while canoeing on scenic Oil Creek. The park is great for biking, fishing and cross-country skiing too.

VENANGO COUNTY HISTORICAL SOCIETY MUSEUM

301 S. Park St., Franklin
814-437-2275

The Hoge-Osmer House, built in 1866, is home to the Venango County Historical Society Museum, where changing exhibits include tools, tableware and jewelry from the oil boom era, as well as period clothing and Native American artifacts. Family and local history buffs can explore the museum's genealogical research library and its Archival Resource Center, which has Civil War material and other vintage photos, documents and letters.

Photo Courtesy of Venango County Historical Society

BARROW-CIVIC THEATRE

1223 Liberty St., Franklin
814-437-3440 or 888-547-2377

Built in 1913 as a vaudeville house, the restored and modernized Barrow-Civic Theatre is home to the Franklin Civic Operetta Association. The 497-seat facility presents a variety of entertainment from dramas to country music. On tap for 2002: *Lend Me A Tenor*, the Patriotic Music Revue, Missoula Children's Theatre, *Once Upon A Mattress*, *Forever Plaid*, *South Pacific*, *Camelot*, and Handel's *Messiah* & Christmas music and more.

ST. JOHN'S EPISCOPAL CHURCH

513 12th St., Franklin
814-432-5161

Sunlight takes on a special glory when filtered through the windows of St. John's Episcopal Church, where 30 stained-glass creations from the Tiffany studios line the walls. The windows, installed in the early 1900s, include biblical scenes in Tiffany's distinctive art nouveau style and an iridescent rose window considered one of the world's finest. Also here: Gorham ceramic-and-gold mosaics. Call to arrange a tour.

OIL REGION ASTRONOMICAL OBSERVATORY

Lockwood Campground
Two Mile Run County Park, Franklin
814-437-2525
www.oras.org

Get a closer look at the heavens on public viewing nights at the Oil Region Astronomical Observatory, where a rotating roof rolls back 10 feet to expose the night sky. Visitors can stargaze through one of Western Pennsylvania's largest public telescopes. Call for an event schedule.

DANDY'S FRONTIER FAMILY FUN PARK

Route 322, across from Cranberry Mall, Cranberry
814-677-5278

Play the day away at Dandy's Frontier Family Fun Park, where you'll find indoor and outdoor amusements for all ages. Take a spin on the go-cart track, make a splash in the bumper boats or play a round of miniature golf. The park also has skill games, rides, and a 6,000-square-foot game arcade.

DRAKE WELL MUSEUM

Route 8, south of Titusville
814-827-2797
www.drakewell.org

Visit the birthplace of the petroleum industry at the Drake Well Museum, on the site where Edwin Drake drilled the world's first oil well in 1859. You'll see more than 80 indoor and outdoor exhibits, including working replicas of the original well house and derrick, complete with steam engine and wood-fired boiler. Also here: vintage photos, videos, demonstrations, a renowned library, bike and hiking trails and picnic pavilions.

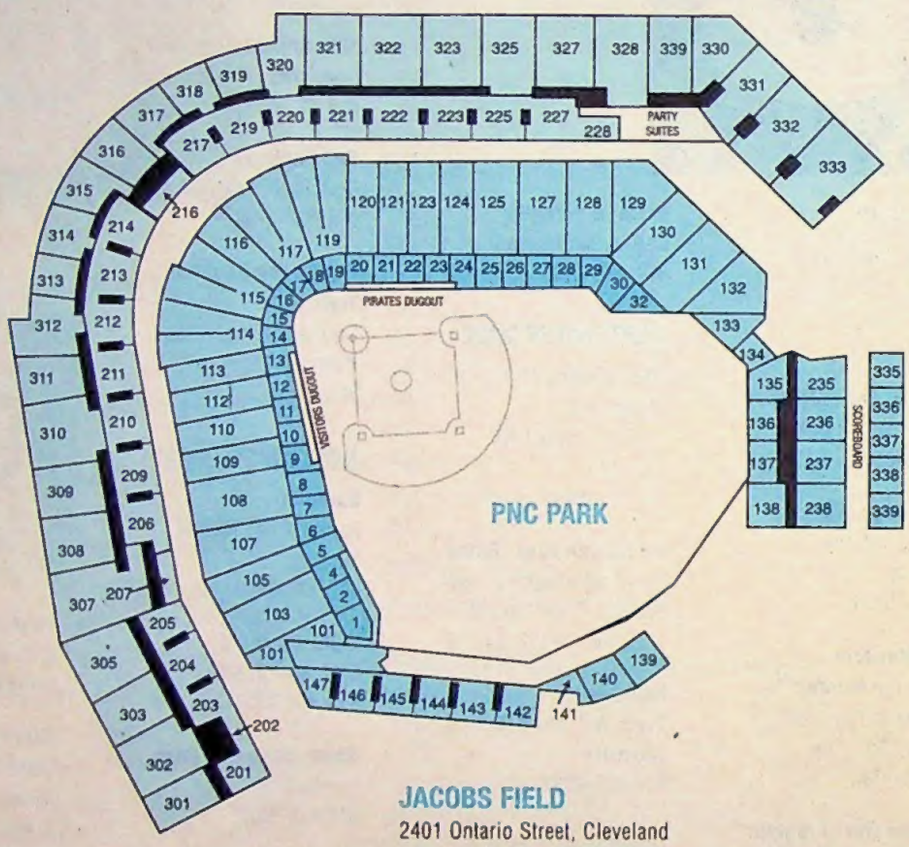
Stadiums

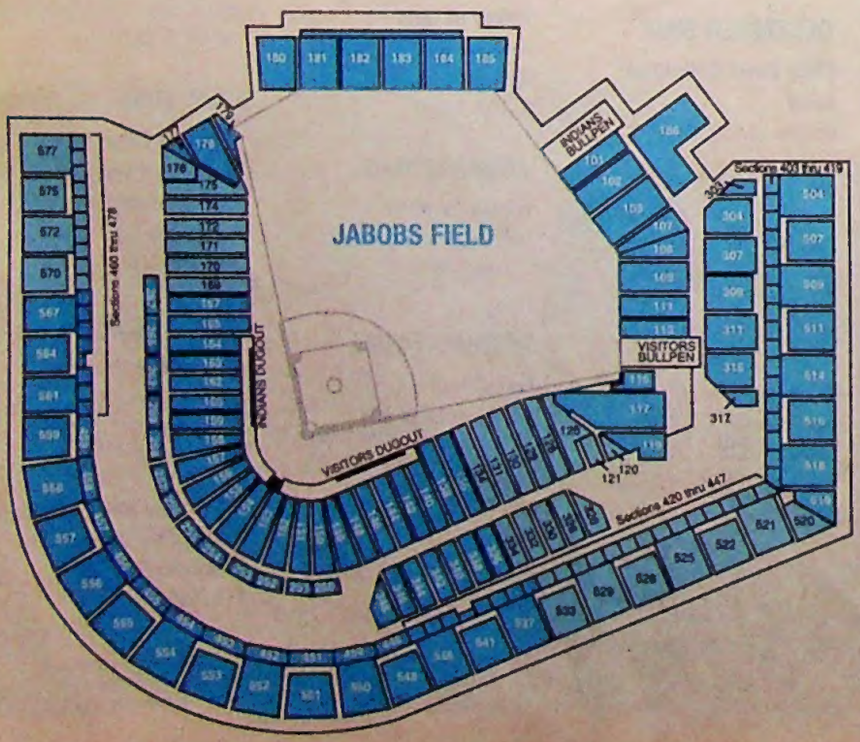


PNC PARK

115 Federal Street, Pittsburgh
412-321-BUCS or 800-BUY-BUCS

After 30 years in Three Rivers Stadium, the Pirates now make their home at the new 38,127-seat PNC Park, built near the Three Rivers site. It has a natural-grass playing surface. The city skyline provides a dramatic backdrop for the outfield. The park's intimate, two-deck design gives every fan an ideal sight line.

Pittsburgh Pirates
Major League Baseball
April – Sept.
Tickets: 412-323-5000
www.pirates.mlb.com



JACOBS FIELD

2401 Ontario Street, Cleveland
216-420-4200

Jacobs Field has been the home of the American League's Cleveland Indians since 1994. A baseball-only stadium, "The Jake" has a natural-grass surface and a seating capacity of 43,368. Tours of the ballpark are available May-September.

Cleveland Indians
Major League Baseball April – Sept.
Tickets: 216-241-8888 www.indians.com

CLEVELAND BROWNS STADIUM

1085 W. Third Street, Cleveland

Cleveland's new NFL team began play in the fall of 1999 in this open-air, natural-grass stadium. Seating capacity is 73,000.

Doing Business With Verizon

Setting Up or Changing Your Phone Service

If you've just moved into a new home or established a new business, we will be happy to connect your phone service. We can also make any changes needed to your current service. Please call Verizon's Customer Contact Center at one of these toll-free numbers:

Residential customers **1-800-483-4000**
Business customers **1-800-483-5000**

For changes or additions to your service, you can also contact the **Verizon PhoneMart** at **1-800-483-6697.**

All customers with Text Telephones (TTYs—special equipment for people with hearing and/or speech disabilities) call Verizon through the Pennsylvania Relay. (Please see page 10 for calling instructions.)

When applying for new telephone service you will be asked to answer several questions. Responses to questions such as your address, how your name should appear in the directory, Verizon calling services you may wish to order, credit information, and previous telephone services will help us with all of your telephone service needs and determine if a deposit will be required. If a deposit is required, it will be refunded to you, with interest, after a year of timely payments.

Residential phones are installed for normal domestic use. Residential service will be changed to business service if the telephone is used primarily for business or is advertised for business purposes. If you want to change your business service to residential service, you will be required to change your telephone number, unless the downgrade is coincident with the new directory publication.

Please Note: To ensure your white page listing is correct for the next directory, please call the appropriate 1-800 number at least three months prior to the publication date to make any additions, changes, or deletions.

Unresolved Complaints

Do you have a billing question or a service inquiry?

If you have a question about your bill, or have a concern or problem about your local telephone service, please call your local telephone service provider. Your telephone service provider would like to help you resolve any issue you may have.

Verizon customers may call:

Residential customers **1-800-483-4000**
Business customers **1-800-483-5000**

Text Telephone (TTY) customers call Verizon through the Pennsylvania Relay. (Please see page 10 for calling instructions.)

The customer service representative who answers your call will help you resolve your issue. If for any reason you are not satisfied with the solution offered, please ask to speak with a supervisor. Supervisors are highly trained and are able to resolve most issues.

If there are multiple telephone service providers in this area, and if you are attempting to reach a company other than Verizon, please see the section of this guide that lists other local telephone companies to find the correct number.

What do I do if I am not fully satisfied with the solution proposed by my telephone service provider?

Many service providers have a customer relations office which is staffed to provide additional assistance to customers with billing or service issues.

If you are not satisfied after speaking with a supervisor, Verizon customers may contact: Verizon Customer Relations (toll-free) at **1-800-483-7988.** The office is open Monday through Friday, from 8:30 am to 4:30 pm.

You may also reach Verizon Customer Relations via Verizon's web site at http://www.verizon.com/customer support/contactus/ - Please select the "Comment on a recent service experience" button and submit your inquiry.

Or you may write to:

Verizon Customer Relations
P.O. Box 1804
Marion, OH 43301-1804

If I am still not satisfied, is there any other alternative for me?

You may call the Bureau of Consumer Services at 1-800-782-1110.

Or you may write to:

PA Public Utility Commission
P.O. Box 3265
Harrisburg, PA 17120

Complaints must be filed within seven days of the incident, and the customer filing the complaint must certify that a copy of the complaint was provided to Verizon. The commission will provide the customer with a written decision within 30 days of receiving the complaint.

Billing

If you have billing questions, please contact us at one of these toll-free numbers:

Residential customers **1-800-483-3000**
Business customers **1-800-483-5000**

Text Telephone (TTY) customers call Verizon through the Pennsylvania Relay. (Please see page 10 for calling instructions.)

For your convenience, you can also use Verizon's automated system to check the status of your bill; find the payment location nearest you; and make payment arrangements. Before you call, please locate your customer ID number. You'll find it on the first page of your bill next to your telephone number. The automated system is accessed by calling the telephone number (listed above) for residential customers. (This service is only available to residential customers.)

You will be billed monthly for standard charges such as local service (one month in advance), long-distance calls (from any telephone number for which you have billing responsibility), authorized charges on your calling card, optional services (Call Waiting, Caller ID, etc.), and any past due amount. The due date for payment is printed on your bill. Payment not received by the due date is considered late and penalty charges may apply.

Deferred Payment Plan

If you cannot pay your bill by the due date, we may be able to offer you a deferred payment plan. Please call Verizon's Customer Contact Center, at one of the following toll-free numbers, for more information:

Residential customers **1-800-483-3000**
Business customers **1-800-483-5000**

Text Telephone (TTY) customers call Verizon through the Pennsylvania Relay. (Please see page 10 for calling instructions.)

Verizon Credit Policy

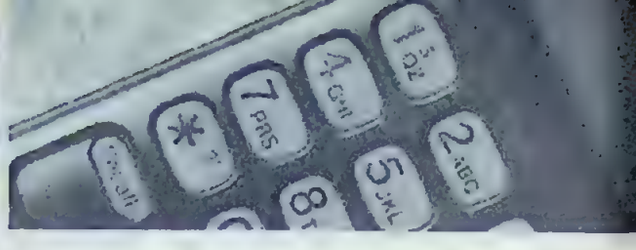
Like most businesses extending credit to customers, Verizon also establishes credit limits. If your account has a credit limit, the phrase "Your account credit limit is $XXX" will appear on your bill following the phrase "Total Verizon charges."

Your payment record will be reviewed monthly to determine if you qualify for a change in your credit limit status. If your account is current and your unbilled long-distance does not exceed the credit limit, no action will be taken. If the credit limit is exceeded, written notification will be sent, and your long-distance may be suspended. Service restrictions will not occur for disputed amounts when a complaint is pending.

For questions about Verizon's credit policies, call us toll-free at one of these numbers:

Residential customers **1-800-483-1807**
Business customers **1-800-483-5000**

Text Telephone (TTY) customers call Verizon through the Pennsylvania Relay. (Please see page 10 for calling instructions.)



Payment Locations

You can pay by mail or by automatic bank payment. You may also be able to pay in person. Please use the return envelope enclosed with your bill for mailed payments. Do not send cash. Payments for local service go to Verizon, Post Office Box 920041, Dallas, TX 75392-0041. Payment of maintenance bills should be mailed to Verizon, Post Office Box 660652, Dallas, TX 75266-0652.

For in person or automatic bank payments from your account, contact your service representative for more information.

Disconnect Service

Your telephone service can be disconnected for non-payment of your monthly bill. If this occurs, a "Notice of Account Past Due" for the late payment will be sent to you and your service will be disconnected if payment is not received within five days. (Required payment following disconnection will include all late charges and reconnection charges. A deposit may also be required to re-establish your credit.)

Additionally, telephone service can be disconnected for the following reasons:

1. Failure to comply with the terms of a payment agreement
2. Failure to comply with deposit or credit arrangements
3. Failure to remove unauthorized attachments from Verizon equipment (lines, etc.), after written notice
4. Failure to stop abuse or misuse of telephone equipment and/or service, after written notice. Abuse or misuse may be defined as calls made in a profane, obscene or frightening manner.
5. Abandoning telephone service without notice to Verizon
6. Tampering, in any manner, with Verizon equipment

Please Note: Your service won't be disconnected if you fail to pay an amount currently involved in payment dispute and resolution procedures. You must, however, pay the entire amount of your bill(s) that is not in dispute. Settlement of the disputed amount should take place once the dispute is resolved. Settlement of disputed amounts should not exceed 60 days under any circumstances.

Directory Assistance Charges

You can locate a **local** or **long-distance** telephone number anywhere in the U.S. simply by calling **411.**

Within the United States, you can locate a **long-distance** number by calling 411. (You do not need to know the area code.) For 95¢ per call you can request up to two listings—at the start of your call, please tell the operator that you will be requesting more than one listing. **Note:** National Directory Assistance is not available in all Verizon serving areas. Prices are subject to change.

Within your **local** calling area, residential customers can make two Directory Assistance calls during each monthly billing period at no cost. Extra calls are billed at 50¢ each. Business customers are charged 57¢ per call. You may request two numbers at a time—at the start of your call, please tell the operator that you will be requesting two listings. (Charges do not apply to local Directory Assistance calls from coin telephones, hospitals, or from customers who are unable to use the phone book because of a permanent disability.)

Can't find pen and paper to write down the number? Simply **press 1,** and the number you requested from Directory Assistance is automatically dialed for you. Completed Directory Connect Plus calls cost 30¢ and will be charged to your phone bill in addition to any other applicable Directory Assistance charges. (Charges will not apply to calls placed from coin telephones, hospitals, or by disabled customers.) This service is not applicable to non-published numbers nor will the service be provided to toll-free and cost-per-call numbers. (Please see page 14, Area Code listings under WATS and CPC.)

The Pennsylvania Public Utility Commission regulates the charges listed here. These rates were correct on the date that this directory was compiled. These charges are subject to change by order of the Pennsylvania Public Utility Commission. Current rates are always available from Verizon's Customer Contact Center.

Directory Assistance Features

Verizon's Automated Directory Assistance is designed to help handle your calls more effectively. An automated voice will ask you for the city and listing information. If you need more than one listing, press "0" at the initial prompt to reach an operator.

If you want to get through the call more quickly, press the pound key "#" to skip to the next prompt. If you need assistance, you can press "0" at any time and an operator will come on the line.

Repair

For repair service, please contact Verizon Repair Resolution Center at one of these toll-free numbers:

Residential customers and single line business customers (two lines or less) **1-800-483-1000**
Business customers with multiple lines (three lines or more) **1-800-483-2000**

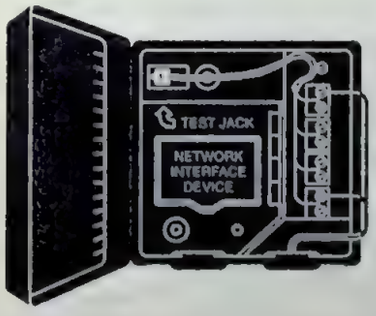
Text Telephone (TTY) customers call Verizon through the Pennsylvania Relay. (Please see page 10 for calling instructions.)

When you have a service problem, we'll do our best to quickly locate and clear up the trouble. Depending on the source of the problem, the following will apply:

Outside Line: All too often, private homeowners and construction crews unintentionally dig up land where telephone lines and cables are buried. This sometimes results in costly damage or destruction. Before you do any extensive digging or construction on your property or public lands, please dial 1-800-242-1776. Flags will be placed indicating buried cables. This is an absolutely free service. **So please call before you dig!** In instances of telephone cable damage or severance, charges will be assessed to the offending party.

Finding the Problem:

To locate a problem, you may want to use the Network Interface Device (see drawing) if one is attached to the outside of your home or business.



To test:

- Open cover of device (one screw may need to be removed).
- Open hinged latch inside device (not applicable to all boxes such as the one shown in the drawing).
- Plug working phone into jack.
- If phone does not operate, notify Verizon Repair Resolution Center that the outside line is in need of repair.
- Call toll-free **1-800-483-4000,** for information about Inside Wire Maintenance Service.

Inside Wiring

If your home or business requires wiring, Verizon can provide quality inside wiring service. Also, during construction or remodeling, Verizon can prewire structures to eliminate exposed wiring. Check to see if your home or place of business is already wired for telephone service. If so, Verizon can activate your phone line for both local and long-distance calls.

Independent contractors and residential customers can also wire buildings for telephone service. Verizon will provide the necessary telephone interface to the building. Please remember that all inside wiring must meet the regulated standards.

Inside Wire Maintenance Plan

About the Plan

Verizon's Inside Wire Maintenance Plan is an optional monthly service for residential and small business customers that provides repair protection for the telephone jacks and wires inside your home or office.

Telephone lines connect to a Network Interface Device on your property. This interface device is often located on the outside wall of your home or another building on the property, such as a garage. From this interface connection point, telephone lines extend into the building, through the jacks where you plug in your phones. This wiring, from the Network Interface Device to the jacks, is called "inside wire." Verizon's Inside Wire Maintenance Plan covers repairs to the inside wire and jacks. With Verizon's Inside Wire Maintenance Plan, Verizon will repair faulty jacks and inside wire at no additional charge.

You do not need to purchase inside wire maintenance service in order to obtain telephone service. If you purchase inside wire maintenance service, you may cancel it at any time without penalty.

Possible Problems With Telephone Wire and Jacks

Telephone wire and jacks have a long life. They do not normally go bad just because of age. But many things, including everyday wear and tear, can damage the telephone wire or jacks inside your home. The charge you pay for basic Verizon residential telephone service does not cover repairs to your inside wire or jacks. It is your responsibility to get your wire or jacks fixed if something does go wrong.

With Verizon's Inside Wire Maintenance Plan, you'll never again pay for unexpected or expensive repairs to your jacks or inside wire.

Repairs Covered by the Plan

Customers with existing Verizon telephone service are subject to a 30-day waiting period before inside wire coverage takes effect. New customers are not subject to this 30-day waiting period. Verizon's Inside Wire Maintenance Plan includes these benefits:

- Repair of faulty telephone jacks or wire inside your home as long as they were working when the Inside Wire Maintenance Plan was ordered.
- Diagnostic work to determine where the problem is. Verizon's Inside Wire Maintenance Plan does not include repair of the phone or other equipment, such as answering machines and computer modems, connected to the jacks, but does include letting you know if the problem is in the equipment so that you can have the equipment repaired.
- Coverage on all newly installed or relocated standard telephone inside wire and jacks
- Discounted labor rates on service to add new wiring and jacks or to replace nonstandard wiring

Repairs Not Covered by the Plan

Verizon's Inside Wire Maintenance Plan does not cover:

- Repair of telephone instruments and other devices, such as computer modems and answering machines, connected to the inside wiring and jacks
- Inside wiring and jack coverage for marine activity, recreational vehicles (RVs) and construction trailers, or other temporary or moveable structures
- Damage due to natural disasters, floods, or acts of God, other than lightning
- Nonstandard wiring is wiring that does not meet telephone industry standards or the National Electric Code Material Standards for carrying telephone signals. Nonstandard wiring may work in some situations, but may not work properly in other situations, such as for two-line service where you may get crosstalk. Verizon's Inside Wire Maintenance Plan will cover the repair of breaks to nonstandard wire, but only to restore the wire to its original condition. Verizon's Inside Wire Maintenance Plan does not cover replacement of nonstandard wire. However, Verizon's Inside Wire Maintenance Plan does include a 50% discount on Verizon parts and labor rates to replace nonstandard wire with wiring that does meet appropriate standards for telephone service. This discount is not available if you do not have Verizon's Inside Wire Maintenance Plan, and Verizon's normal rates would apply.
- Repair of damage due to malicious activity, vandalism, riot, or civil disturbance

Hassle-Free Service

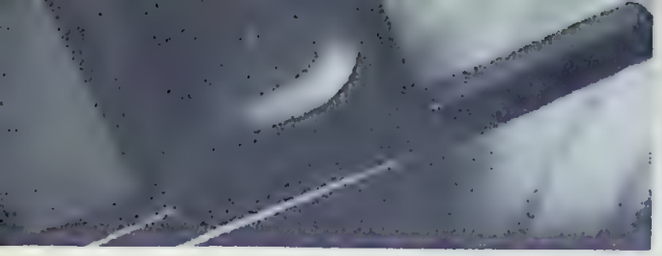
Verizon's Inside Wire Maintenance Plan provides you reliable protection for only pennies a day. This charge applies for each telephone line in your residence or office. If you do not have Verizon's Inside Wire Maintenance Plan, and you call Verizon to make the repairs, you will be billed at Verizon's normal repair rate. Currently this normal repair rate is approximately $85 per hour, and you will be billed for a minimum of one hour. All time beyond this one hour minimum is charged at 15 minute intervals. Currently the rate per 15 minute interval is approximately $21. Repairs can often be completed within one hour, but some repairs take longer, depending on what the conditions are at your home or office.

Verizon's Inside Wire Maintenance Plan is an unregulated monthly service that can be canceled at any time without penalty. If you choose not to subscribe to Verizon's Inside Wire Maintenance Plan and your inside wiring or jacks break, you can still call Verizon to do the repairs at an hourly rate. You can also get inside wire maintenance and repair service from companies other than Verizon. Or, if you prefer, you can do the work yourself.

Additional Service Information

- If you rent your home, you should be aware that residential landlords may be responsible for repairs and maintenance of your inside telephone wire. Check with your landlord or your lease to determine who is responsible for inside wire maintenance and repair.
- Verizon's Inside Wire Maintenance Plan is available to residential and single line business customers. The business rate may be different from the residential rate. Verizon's Inside Wire Maintenance Plan is not available to business customers who use Key/PBX Systems.

To subscribe to Verizon's Inside Wire Maintenance Plan, call the telephone number listed on your monthly bill.



Calling Instructions

Directory Assistance

Need assistance finding a local or long-distance number?
Please call **411**

If you need a toll-free number, please call **1-800-555-1212**
(See page 14, Area Code listings under WATS for a list of toll-free area codes.)

If you have a Text Telephone (TTY), please call, toll-free, **1-800-855-1155** for Directory Assistance. However, applicable long-distance and operator service charges will apply on operator-assisted calls.

Making Local Calls

To make a local call, you don't need to dial "1" + area code. Simply dial the seven-digit telephone number. See the chart below to determine your local (toll-free) calling area.

Here's how to read the chart: Boxes marked with a "•" indicate local calls. Blank boxes indicate long-distance calls.

Busy Line

If the number you're calling is always busy, you can ask the operator to check the line to see if the number is working properly. If you have an emergency, ask the operator to interrupt the conversation. Operator charges might apply. To ensure that you don't miss emergency calls—even when you're on the phone—check into optional Call Waiting or Voice Mail services.

YOUR LOCAL CALLING AREA

To → / From ↓		Clintonville	Cooperstown	Franklin	Grand Valley	Grove City	Harrisville	Mercer	Oil City	Pleasantville	Spartansburg	Titusville	Wesley	Youngsville

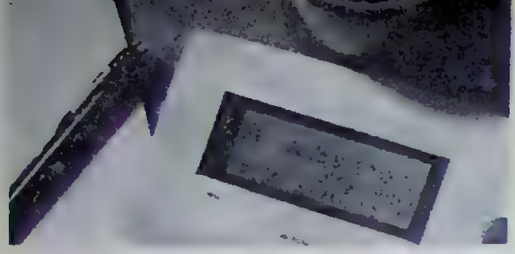
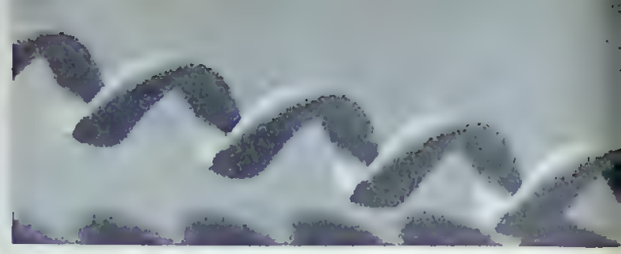
Pleasantville	589				•				•	•		•		
Titusville	827				•				•	•	•	•		
Wesley	786	•				•	•	•					•	





If you always encounter a busy signal when calling a particular number, it is possible the other party is on your line. Dial the operator, who will determine if the party is on your line. If the party is on your line, follow the calling instructions in the next section.

Party Lines

Follow the step-by-step procedure as shown below.

- Dial the access code received from repair service.
- Wait for busy signal which will occur within 10 seconds.
- When busy signal is heard, replace receiver and wait a reasonable length of time for called party to answer. Your phone will stop ringing when the called party answers. If your party does not answer, lift up your receiver to stop ringing.

Calling Assistance for People With Hearing or Speech Disabilities

The Americans with Disabilities Act of 1990 requires all states to provide access to nationwide Telecommunications Relay Services (TRS). Through the TRS, callers using Text Telephones (TTYs/TDDs) are able to communicate with people who use standard voice telephones. TRS communication assistants relay telephone conversations verbatim simultaneously between TTY users and non-TTY users. The Pennsylvania Relay operates 24 hours a day, seven days a week. Employees of the relay service are not allowed to disclose any information received during the relay of the call. Calls made through the relay service are confidential. Operators relay entire conversations, leaving nothing out. There is no charge to use the relay service. Discounted rates may apply to calls placed to telephone numbers within your LATA. Calls to telephone numbers outside of your LATA will be billed at the long-distance provider's regular rates. (Please see pages 11-12 for LATA information.)

The toll-free number for the Pennsylvania Relay is **711** for TTY users. If you do not have a TTY, but want to use the Pennsylvania Relay to call someone who does, call **1-800-654-5988.** If you are using the relay service to make a long-distance call, tell the operator which long-distance company you want to handle your call. Some long-distance companies have their own access numbers for relay services. Contact your long-distance provider for more information. Customers with TTYs can use the Pennsylvania Relay to call their local telephone service provider. Here's how: Call the Pennsylvania Relay at **711.** Tell the operator the number you wish to call. (Please see pages 2-3 for a list of contact numbers.)

Using a Text Telephone (TTY) device, someone with hearing or speech disabilities can call the TTY Communication Assistance Operator, toll-free, at **1-800-855-1155** for assistance. Calls to this number are free, but long-distance and operator assistance charges will apply. The TTY operator can help with:

- Operator-Assisted Calls
- Collect Calls
- Calling Card and Third-Number Billing Calls
- Person-To-Person Calls
- Directory Assistance Requests
- Calls From Motels and Hotels
- Line Interruptions
- Busy Line Verifications

Customers with certain disabilities may be exempt from Directory Assistance charges. They may also qualify for special rates on out-of-area direct-dialed and station-to-station calls. For more information, call your local telephone service provider.

Long-Distance Calling

Use area codes when making calls to locations outside of your local calling area. Refer to the map and listings starting on page 12 to locate the area codes you need. If the city you want is not listed, contact your long-distance provider.

To make a long-distance call without operator assistance, dial "1" + (area code) + number. You can save money by dialing your calls direct without involving the operator. Charges for long-distance calls are set by your long-distance provider. Contact your provider for information about rates and discounts.

To use your calling card, dial "0" + (area code) + number. You will hear a special tone indicating you should enter your calling card number. If you are calling from a rotary phone, wait for the operator to come on the line to assist you.

For operator assistance, dial "0" + (area code) + number. When the operator answers, explain the type of call (listed here) you want to make. Charges for operator-assisted calls begin once the operator connects you to the person you are calling and leaves the conversation. These charges are in addition to the direct-dialed rate for the call. You can ask the operator to tell you the time and charges for the call.

Station-to-Station: Call station-to-station if you want to talk to anyone who is likely to answer the phone at the number you're calling.

Person-to-Person: Calling person-to-person is an efficient use of your long-distance dollars. It ensures that you will only be charged for the call if the particular person or specific extension you are calling is available.

Collect: Collect calls are especially convenient if you are calling from a pay phone and you don't have the required change or a calling card. The operator will ask the person you are calling to accept charges for the call.

Third-Number Billing: What if you are in someone else's home or office and need to make a long-distance call but want the charges to appear on your own telephone bill? You can request third-number billing from the operator. Third-number billing is also useful if you are calling from a pay phone and do not want to call collect. However, when you request third-number billing from any phone, someone must answer the third number and approve the call before it can be completed.

Long-Distance Service Providers

In addition to area codes, all states are divided into one or more geographic regions called LATAs (Local Access and Transport Areas). A toll call from one point to another within a LATA is called an intraLATA or short-distance toll call. A toll call to a point outside a LATA is called an interLATA or long-distance toll call.

"Equal Access" now allows you to choose the company you want to handle your short and long-distance toll calls. You can choose one company to handle both types of calls or a different company to handle each. Once you have notified your local service provider of your choice, all of your toll calls will be handled automatically by the company you chose whenever you dial "1" + (area code) + number to make the call.

For more information, please see pages 2-3 for a list of contact numbers.

LATA Map

This map shows Local Access and Transport Area (LATA) boundaries for the state of Pennsylvania. For an explanation of LATAs, see the previous page.

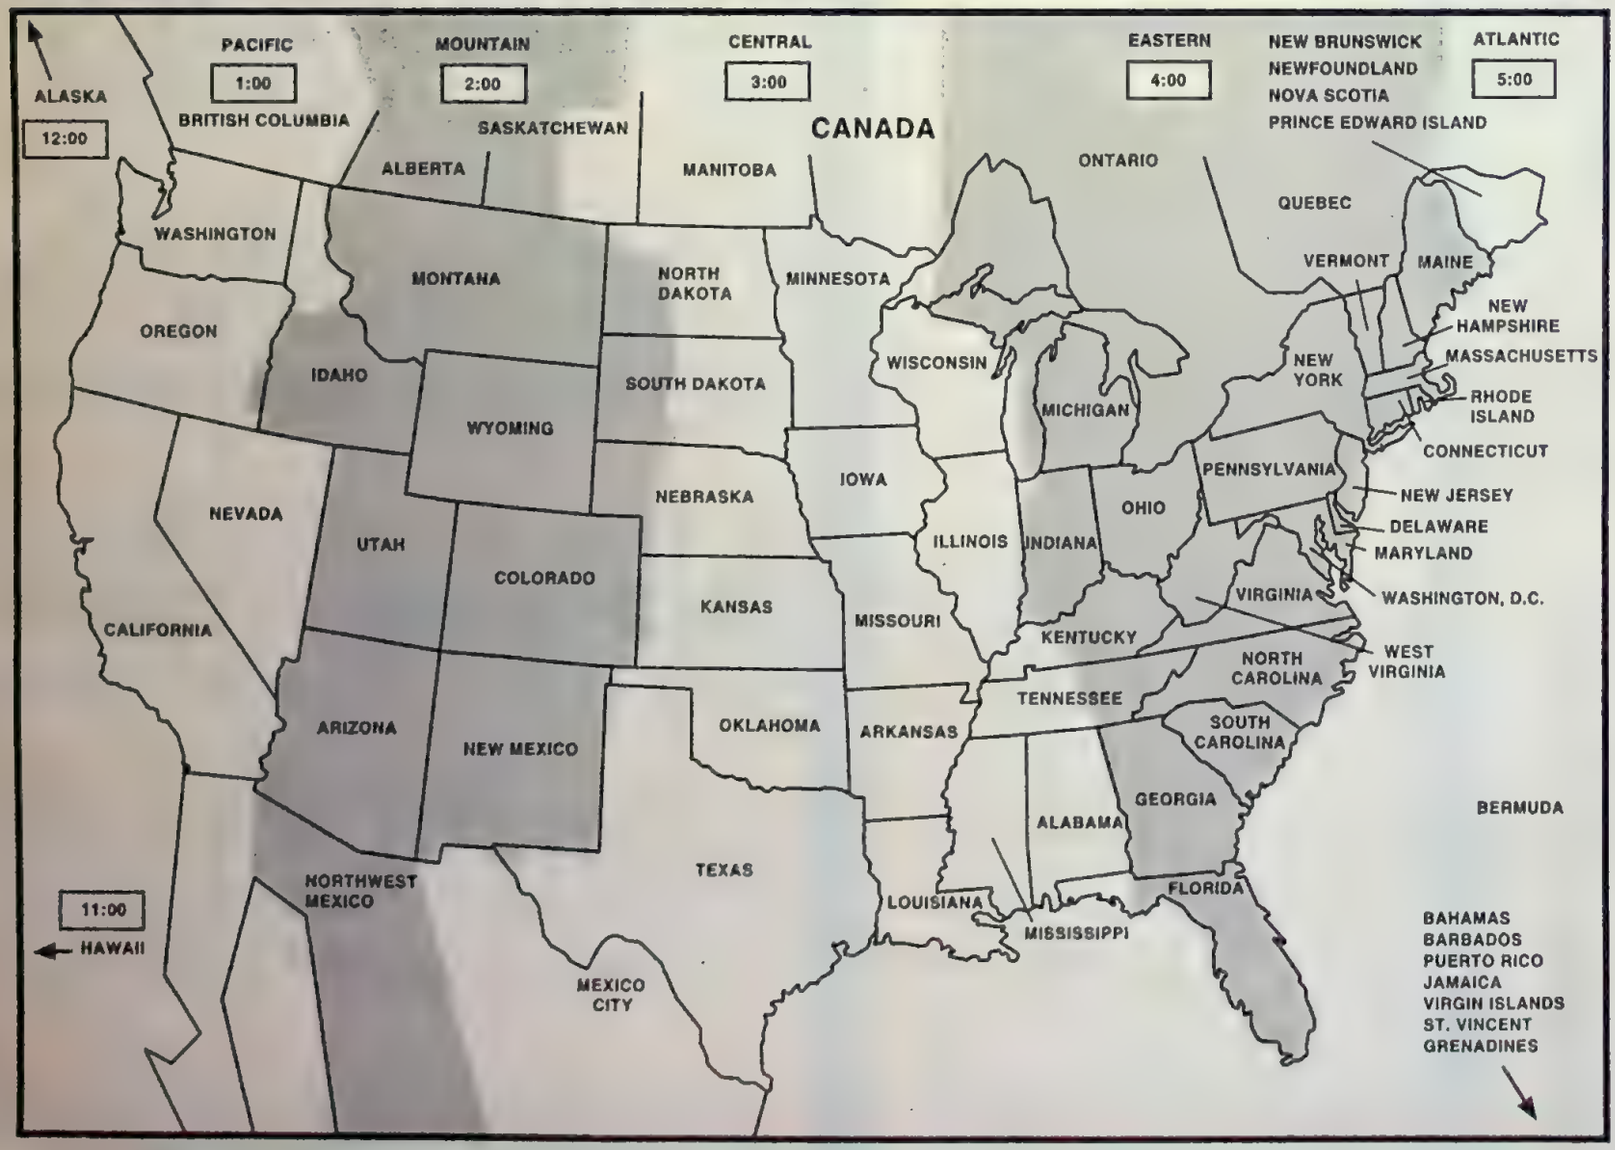
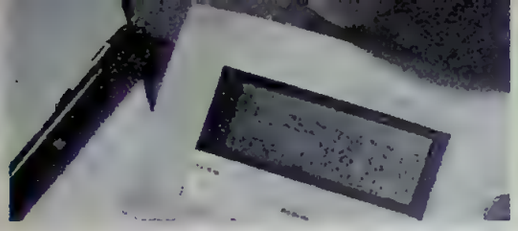
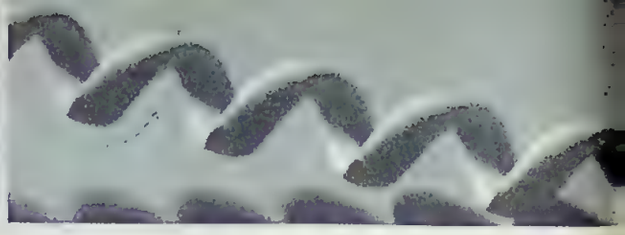
TIME ZONE MAP OF THE UNITED STATES







International Calling

Your international calls automatically go through the long-distance carrier you selected for your telephone service. If you want, you can use another long-distance company by dialing that company's access code before dialing the number you're calling. If you have a calling card, it may also be used to make international calls from the United States and to call back to the United States from some foreign countries. (Some calling cards cannot be used to make calls between foreign countries.)

Here's how to place an international call: To dial direct, dial "011" + country code + city code + number. Calls to Canada, Puerto Rico, and many Caribbean countries are dialed the same way as long-distance calls within the United States. In other words, to call these countries you only need to dial "1" + (area code) + number. (See page 14 for area codes to these locations.) No country, city or international access codes are required.

It may take a while for international calls to connect; you can expect to wait at least 45 seconds (after you've finished dialing) for the ringing to start. If you need operator assistance, dial "01" + country code + city code + number. The operator will ask what type of call you are making. (Please see page 11 for definitions of call types.)

Frequently used country codes are listed below. For information about specific country and city codes, please contact your long-distance provider.

Telephone Safety

Important Safety Tips

There are three telephone safety rules that you should keep in mind at all times—even when using cordless and cellular phones.

Do Not Use The Telephone Near Water. For example, it is unsafe to use the telephone while you are bathing, washing dishes, or in a swimming pool. Contact with water could cause electrical shock.

Do Not Use Your Telephone To Report A Gas Leak. Telephones contain electrical contacts that could generate a tiny spark when you lift your handset. While unlikely, this spark could trigger an explosion if gas is present.

Avoid Using The Telephone During An Electrical Storm. Although protective measures are used to limit abnormal electrical surges from entering your home, absolute protection is impossible. There is a remote risk that you could receive a dangerous electrical shock from lightning while using the telephone during an electrical storm.

Your telephone equipment can be protected against a voltage surge just as electrical equipment is protected from power surges. Primary overvoltage protection is furnished by your local telephone service provider. (Secondary overvoltage protection against damage to equipment such as modems and answering machines is your responsibility.) For more information about voltage surge protection, contact your local telephone service provider.

Underground Cables

You play a crucial role in helping us protect underground cable. Any household chore that involves digging—planting a tree or installing a fence, for example—can lead to damaged cable, which results in disruption of service for many customers. It's very easy to avoid such problems. Simply call **1-800-242-1776** at least 72 hours in advance (excluding weekends and holidays) but not more than 10 calendar days before you dig or drill.

Be prepared to tell us the exact location of the proposed excavation (including the county, city or township, section and 1/4 section number), the type of work you'll be doing, when you plan to start, and how long you think it will take. We'll also need your name and your company's name (if applicable), your address (or company's), a phone number where you can be reached, and the best time to call you back. Following your call, we'll check the location and let you know where the cables are.

Customer Rights & Responsibilities

Telephone Solicitors

A telephone solicitor is a person who calls to ask you to buy something or to make a donation. State and federal laws require that telephone solicitors who call residences must: identify themselves and the business they represent by name, identify the purpose of the call, and provide a telephone number where the solicitor or the company can be reached. Additionally, a telephone solicitor can't legally call a residence before 8am or after 9pm.

Automatic dialing announcing devices must be disconnected from your line within 30 seconds of the termination of the call.

Keep in mind these requirements do not apply to telephone solicitations made at your request, solicitations made in connection with an existing debt or contract, or calls from a telephone solicitor with whom you have a prior or existing business relationship.

If you use a credit card to purchase goods or services from a telephone solicitor, the seller must (unless the seller is a public charity, an organization exempt from federal income tax under the Internal Revenue Code 501 [c] [3]):

- Offer a full refund for the return of undamaged and unused goods within seven days after you receive the goods or services (the seller must process the refund within 30 days after you either return the merchandise or cancel an order that you have not received) or
- Provide you with a written contract fully describing the goods and services being offered, the total price charged, the seller's name, address, and phone number, and any terms and conditions affecting the sale.

If you want to reduce the number of at-home telephone solicitation calls that you receive from national companies write to:

Telephone Preference Service
Direct Marketing Association
P.O. Box 9014
Farmingdale, New York 11735-9014

Threatening or Obscene Phone Calls

If You Receive Obscene or Nuisance Calls, Follow These Suggestions:

- Hang up
- Give no information
- Advise children to do the same

Making threatening, obscene, or nuisance calls is a violation of state and federal laws. If you receive a threatening call, report it immediately to the police. Many optional phone services—**including Caller ID Services, Call Block, and Call Tracing**—are available in some areas and can help prevent annoying calls. Often, changing your telephone number will resolve the problem.

Call the Nuisance Call Bureau, toll-free, at **1-800-257-2969** for more information or assistance.

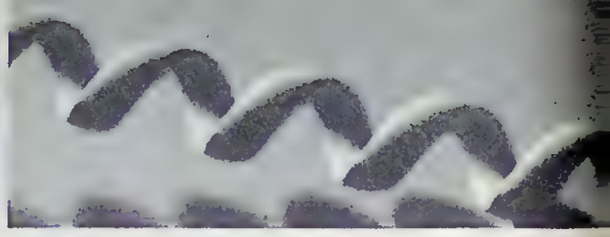
Recording Phone Calls

The recording of two-way phone conversations is governed by state and federal laws and regulations. For more information, consult an attorney.

700/900/976 Numbers

Telephone numbers beginning with 700/900/976 provide information to callers at a cost-per-call basis. Examples could be road reports, dial-a-joke, horoscopes, stock market reports, or ski conditions. You will be charged for these calls at the rate established by the information provider. Your local telephone service provider bills you, on behalf of the provider, for these charges. If you don't want anyone in your home making 700/900/976 number calls, contact your local telephone service provider. The first time you request blocking of 700/900/976 number calls, there is no charge. If you cancel the blocking and then request to have it reinstated, you may be charged.

To cancel 700/900/976 number blocking, you must submit written authorization to your local telephone service provider.



Customer Billing Rights for 700/900/976 Number Calls

Your local telephone service provider furnishes billing service for long-distance companies and companies offering 700/900/976 number information services. The Federal Telephone Disclosure and Dispute Resolution Act gives you the following rights regarding 700/900/976 number calls and telephone-billed purchases:

- You do not have to pay for calls to 700/900/976 numbers that do not follow federal regulations.
- You have the right to question charges for billed telephone purchases or calls to 700/900/976 number information service providers. This process begins when you call or write your local or long-distance telephone service provider, using the telephone numbers listed on your telephone bill, within 60 days of receiving the statement showing the charges in question.
- Should you question charges on your telephone bill, your local or long-distance carrier must respond to your request within 40 days unless the dispute is resolved within that time.
- If a billing error has occurred, your local or long-distance telephone service provider must correct the error and notify you of the correction. Your account will be credited for the disputed amount pending investigation. The company providing the service, however, may attempt to collect the disputed amount even in cases where a billing error has occurred. Your local or long-distance telephone service provider will furnish you with the name, telephone number and address of that company so you can contact them directly.
- If there is no billing error, your local or long-distance telephone service provider will furnish you a written explanation of why no error was found and, upon request, provide you with documentary evidence of why you were billed for the charges in question. You will have a minimum of ten days to pay the disputed amount. Failure to pay such amount may be reported to a credit reporting agency or be subject to collection. Involuntary blocking may also be imposed so that you will be unable to make 700/900/976 number calls from your telephone.
- Neither your long-distance nor your local telephone service may be disconnected if you choose to withhold payment for telephone-billed purchases or calls to 700/900/976 numbers. However, you must continue to pay for all charges on your bill that are not part of the disputed amount.
- If your local or long-distance telephone service provider fails to follow the billing and collection procedures mandated by federal regulations any disputed amount up to $50 may be forfeited to the customer.

Should you have questions regarding any of this, please call your local or long-distance telephone service provider using the telephone numbers listed on your bill.

Other Telephone Service Laws and Practices

Throughout the Customer Info Guide we've told you about many of the rules and regulations that govern telephone service. Here are some other important things you should know:

Your local telephone service provider furnishes telephone service without regard to race, nationality, color, religion, sex, disabilities, or marital status. Your local telephone service provider is regulated by the Pennsylvania Public Utility Commission (PUC). A complete copy of rules and regulations governing telephone service is available from the commission's state office or from your local telephone service provider.

The rates and practices for telephone service now in effect are subject to change. Customers will be advised of any request for a general rate increase within 45 days of the request and before the date of the first public hearing about the rate increase. A schedule of current rates is available at the PUC's state office or from your local telephone service provider. All telephone numbers are owned by your local telephone service provider, which has the right to change any number as may be required.

No automatic dialing announcing device can be connected to the network unless it complies with Federal Communications Commission (FCC) rules. Autodialers used to transmit artificial or prerecorded voice messages should automatically release the called party's line within 5 seconds of that party's hang-up signal reaching the caller's dialing system. For additional information call your local telephone service provider.

Applications for party line use are accepted by your local telephone service provider with the understanding that each customer will not interfere with the other's fair and equal use. Your local telephone service provider reserves the right to limit local calls to five minutes each if a problem occurs with a party line arrangement. You are required by law to give up use of a party line in an emergency.

If you have a problem reaching an emergency number, dial "0" for the operator. Tell the operator the number you are trying to reach and/or the type of help you need. Also, be prepared to provide the number from which you are calling, the community name, and the street address.

For your protection, your local telephone service provider is likely to detect fraudulent calls. Defrauding or attempting to defraud a telephone company of its lawful charges is prohibited by state and federal laws.

Rights and Responsibilities as a Customer

Residential customers have many important rights and responsibilities related to their telephone service. These rights and responsibilities are in place to make sure customers and telephone companies treat each other fairly.

Your local telephone service provider has the responsibility to honor your rights. We've included a lot of information throughout the Customer Info Guide to help you understand what your rights are. This section provides more details about your rights as a residential telephone customer. The information here is based on the regulations of the Pennsylvania Public Utility Commission. If you have questions about your rights and responsibilities, you can call the Pennsylvania Public Utility Commission at 1-800-782-1110 or your local telephone service provider. (Please see pages 2-3 for a list of contact numbers.)

Here are some definitions that will help you understand the information in this section and throughout the Customer Info Guide:

- *Applicant*—Any person who applies for residential telephone service. Does not apply to someone who requests a transfer of service within the local telephone company's service area.
- *Billing Period*—A period of not less than 26 days and not more that 35 days.
- *Delinquent Account*—Charges for telephone service that have not been paid in full by the due date printed on the bill or by another agreed upon date.
- *Disconnection of Service*—The temporary or permanent ending of service at the request of the customer.
- *Dispute*—A disagreement between the telephone company and an applicant, a customer, or someone representing a customer.
- *Interexchange Carrier*—Any public utility providing long-distance telephone service but not local service.
- *Interexchange Service*—The transmission of messages or communications by telephone between points outside a local calling area.
- *Local Exchange Carrier*—Any public utility providing local telephone service that can also provide long-distance service.
- *Local Exchange Service*—The transmission of messages or communications by telephone between points within a local calling area.
- *Non-Basic Service*—Any service or product other than telephone service, including the sale or lease of telephone equipment, inside wire maintenance plans, repair services, premises visits for service installation, and custom calling services.
- *Payment Agreement*—A mutually satisfactory agreement between the customer and the local exchange carrier that allows the customer to pay an unpaid account balance with one or more payments over a reasonable period.
- *Suspension of Service*—Temporary ending of service without the consent of the customer.
- *Termination of Service*—Permanent ending of service without the consent of the customer.

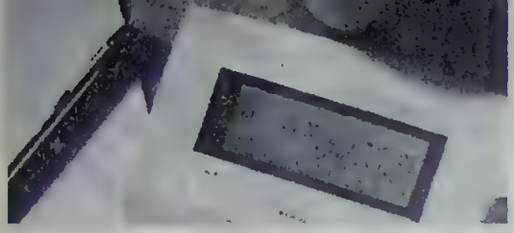
When you *apply for residential service*, you have the right to:

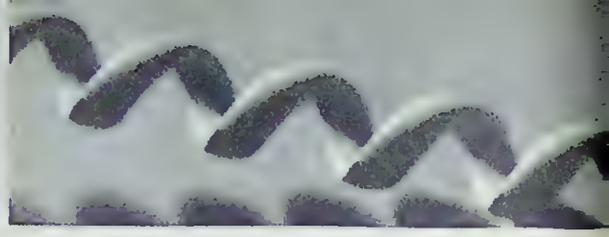
- A full explanation of the telephone company's credit and deposit rules, and
- A full explanation *(including the prices)* of all available services and equipment options beginning with the lowest-priced service that's available. You may ask the company to send you a written price list.

Sometimes customers are required to provide *security deposits* for their telephone service. The decision to charge you a deposit must be based only on your credit history. Deposits cannot be required based on where you live, your race, religion, gender, age *(if over 18)*, ethnic background, or marital status.

If you are a new customer, you won't have to provide a deposit if you meet one of these qualifications:

- You have a good payment history with another local telephone company or a good payment history with another utility company. (Your credit history with other companies cannot be checked without your permission.)





- You either own property, have entered into an agreement to purchase real estate within the area serviced by the telephone company, or have at least a one-year lease at a property that is serviced by the telephone company. (If you meet this requirement but have had a poor payment history as a telephone customer within the past two years, you may be required to provide a security deposit.)
- You can provide information and proof showing that you are a good credit risk. Examples of this type of proof are credit card accounts and your employment history. You cannot be considered a poor credit risk simply because you have never had credit.

If the telephone company's inquiry into your credit standing is expected to take longer than three business days, the company must provide you with service at least until it completes the investigation. If the company requires you to pay a deposit, it must provide you with a written explanation of this decision.

Before providing your telephone service, the telephone company may require that you pay or commit to pay any outstanding residential telephone bills you owe it from within the last four years. You cannot be held responsible for another person's bills unless a court or the PUC decides that you are, in fact, responsible for those bills.

Deposits required of new customers cannot be more than an average two-month phone bill (based on other customers in the exchange area). If you are required to pay a deposit, you will have to pay half of it before service is connected and the balance within 30 days.

If you are an existing customer, you might be required to provide a security deposit. Here's why:

- You've paid two telephone bills in a row late, or within a year you've had two late payments. Before requiring a deposit, the telephone company must send you a notice that you might have to pay a deposit if you continue to pay your bills late.
- You've had your service suspended or terminated for non-payment and you want to have your service restored.

Your deposit requirement can be waived if another telephone company customer *(who meets the credit standards)* provides a written guarantee to cover a payment equal to the cash deposit required from you. This person will then be responsible for payment of your deposit if you don't pay your monthly bills or if you leave an unpaid final bill. This person's responsibility ends when you have established satisfactory credit.

Once you have established credit, *your deposit will be refunded* to you, plus the interest it has earned at an annual rate of 9%. You may choose to have the deposit applied to your account or refunded to you in cash. Credit is considered to be established when you meet all of these requirements at the same time:

- You have paid your bills for 12 months in a row without having your service suspended or terminated.
- You have not paid your bills late more than twice.
- Your account is not overdue.

You will receive your *telephone bill* by mail every month. The bill will separate your monthly charges into three general categories: basic local service, toll service, and non-basic service. You may pay your bill in any reasonable manner including personal check. (However, you cannot pay by personal check if you have had a check returned for insufficient funds within the past year.) The company may charge you a handling fee if your check is returned (unless you stopped payment on the check because of a billing dispute). You may mail your payments to the telephone company's office or pay in person at one of its other payment locations.

Your payment is due within 20 days of the date the bill was mailed to you. (If you plan to be away from home for long periods of time, it's a good idea to make arrangements to have your bills paid; otherwise your telephone service could be suspended.) Late payment fees cannot be required unless your payment is received more than five days after the due date. Late charges cannot be more than 1.25% per month or 15% per year. Additionally, a notice of suspension cannot be mailed or delivered until at least 5 days after the payment due date.

If you only pay part of your bill, the amount paid may be applied to the past due sections in the following order before being applied to your current bill: basic local service, toll service, and non-basic service.

You may want to have the company apply your payment differently if you think your service might be suspended against your will. By doing this, you can protect your ability to make local calls. If you want your payment applied in a different order, you must let the company know in writing or by working out a payment agreement with the company. If you think there is an *error on your bill,* contact your telephone company at the toll-free phone number listed on your bill.

Occasionally, your telephone company may have to *interrupt your service* to make repairs or for safety reasons. If the company knows in advance that service will be interrupted, it must try to notify its customers of the reason for the interruption and how long it is expected to last. If your service is interrupted without notice, you should contact your telephone company about the problem. You may be entitled to a refund if your service remains off for a period of 24 hours or more after you have notified the company.

If you want to discontinue your service, call or write the telephone company at least five days before the date you want the service disconnected. This will prevent the company from billing you for service that you don't want.

The telephone company may suspend your service for any of the following reasons:

- You don't pay your bill. (If you dispute part of your bill, you must notify the company. The company cannot suspend your service if you don't pay the disputed part of your bill while the dispute is being resolved.)
- You don't pay a security deposit, provide a third-party guarantee, or give the telephone company the information it needs to establish your credit.
- You don't allow the company access for maintenance or repair of company equipment.
- You use your telephone service to interfere with or harm other customers' service.
- You do not fulfill a payment agreement.
- You give false or misleading information to get service.
- You use your telephone to threaten someone else's safety or to threaten the ability of the company to deliver telephone service.
- You still owe the company for service that was furnished in your name within the past four years.

The telephone company cannot suspend basic local service if you fail to pay charges for non-basic service and/or charges for toll service, unless the company is technically unable to suspend one without suspending the other(s). If you are facing suspension of your telephone service, you can protect your basic service by paying the amount you owe for that service. The company may suspend your toll and/or non-basic service, but you will still be able to make local calls.

If your telephone company is going to suspend your service, it will mail you a *written suspension notice* at least seven days before the date your service is scheduled to be suspended. The notice will tell you the reason for the proposed suspension, the date your service will be suspended, and what action you can take to avoid the suspension. The notice will break down the total amount you owe into basic, non-basic, and toll charges. The charges for each type of service are treated separately so you will know how much must be paid to keep each service. The telephone company is not required to give you written notice if you do not fulfill a PUC payment agreement set up to avoid a suspension. In this case, the company must try to contact you personally at least 24 hours before suspending your service.

If there's a *medical emergency* in your household that will be affected by the suspension of telephone service, the suspension may be postponed. A physician must tell the telephone company how the suspension of service will worsen the serious medical condition. The suspension will be postponed a maximum of 30 days, and, if necessary, the postponement may be renewed for 30 days.

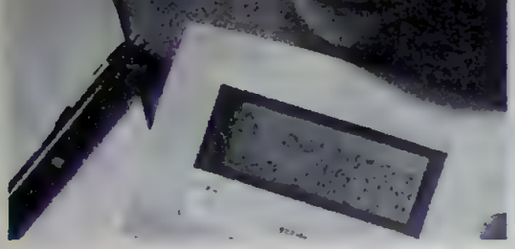
If the suspension is postponed, you must still pay your bill on time for all services provided after the postponement date and limit your toll calls to $25. For more information contact your telephone company's billing center.

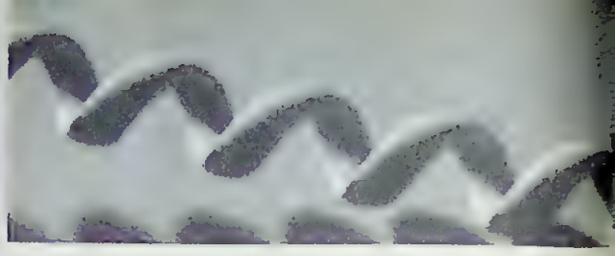
To avoid having your telephone service suspended, contact the company before the scheduled suspension date with any billing dispute or payment problem.

The telephone company is not allowed to suspend service on: Saturday or Sunday, a bank holiday, or any day when the company's business office is closed.

Your telephone company will restore your suspended service if:

- You pay your overdue bill and the reconnection fee in full; or
- You pay the amount that is due according to a payment agreement and the reconnection fee; or
- You make a payment agreement with the company to spread out the payments of the outstanding charges and the reconnection fee; or





- You stop the unauthorized practice for which service was suspended and pay the reconnection fee in full; or
- You pay the amount you owe for basic local service. (The company will restore your local service, but your toll and/or non-basic services will remain suspended until you make arrangements to pay what is owed for them.)

After you have met the appropriate requirements, your service will be restored by the end of the next full work day. If your service is suspended, you will have to pay a reconnection fee, and you may be required to pay a security deposit. You can pay the reconnection fee as part of a payment agreement. Payment to have your service restored can be made at any authorized payment agency. After you make your payment, call the telephone company so your service can be restored.

If you are concerned about staying up to date on your account, the *Third Party Notification Program* enables you to request that notices of service disconnection and termination be sent to another person. Please remember, however, that this person isn't responsible for paying your phone bills.

Once your telephone service is suspended, the company's next step is to mail you a *termination notice.* You should receive this notice ten days before your service is scheduled to be terminated. The notice will let you know what you can do to restore your service. It is recommended that you contact the telephone company as soon as you receive a termination notice.

Please Note: Suspension is the temporary interruption of your telephone service. Termination is the permanent end of your service. If your service is terminated, you must reapply for service as if you were a new customer. It is important to remember the difference because the cost of having service restored after termination is higher than the cost of restoring service after suspension.

If you experience any problems with your telephone service, you have the right to file a *dispute* with your telephone company. Disputes should be filed before suspension or termination of service occurs. Once you register a dispute, the telephone company must do these things:

- Investigate your dispute thoroughly.
- Stop suspension or termination procedures that are related to the nonpayment of disputed charges.
- Give you information to help you make an informed judgment about your account.
- Give you a report of the investigation within 30 days. The report should include the company's final position on the disputed matter. You can request a written copy of this report.
- Inform you of your right to contact the PUC for further review of the dispute.

Please Note: While your dispute is pending, you must pay all charges on your bill that aren't in dispute.

If you aren't satisfied with the company's response to your dispute, you have the right to file an *informal complaint* with the PUC's Bureau of Consumer Services. In order to protect your rights, you should call or write the PUC within ten days of the date the company mailed you its report. You will need to supply the following information:

- Your name, address, and telephone number
- The name of your telephone company
- A description of the problem
- The action taken by the company
- The response you want

The bureau will conduct its own investigation of your complaint and report its results back to you.

To contact the bureau write: Pennsylvania Public Utility Commission, P.O. Box 3265, Harrisburg, PA 17120. Or, call 1-800-782-1110 (general utility complaints) or 1-717-783-1740 (general information).

If you disagree with the Bureau of Consumer Services' decision, you have the right to appeal that decision by filing a *formal complaint.* The telephone company also has the right to appeal the decision. If you want to file a formal complaint, you must notify the PUC within ten days of receiving the bureau's decision. Filing a formal complaint gives you the right to a hearing with a PUC judge.

Human Services

This Guide to Human Services was compiled by the United Way of Venango County. It is published in this Directory by GTE of Pennsylvania as a Public Service. For further information about the guide call 814-437-2611.

The World of Verizon Directories

Whether you're a consumer looking to buy or an advertiser wanting to sell, Verizon's SuperPages directories make life easier. And you always have lots of options in Verizon's phone book.

Why Advertise in the White Pages?

For businesses that are known by name, White Pages advertising protects established clientele, supports repeat business, and encourages referral customers, while complementing Yellow Pages advertising.

Yellow Pages Options for Advertisers

Your company receives a free Yellow Pages listing, under the category of your choice. You can enhance this basic listing with Yellow Pages advertising.

To advertise in Verizon's White Pages and Yellow Pages, contact your sales agent or customer service representative:

Sales **1-800-541-4381**
Customer Relations **1-800-555-4833**

Internet Options for Advertisers

For millions of national business listings, consumers around the world can log on to SuperPages.com℠ services on the Internet. You can search SuperPages.com by business type, location, products, brand names—any number of ways. Find up-to-date information, online maps and customized door-to-door driving directions. Or even buy products online. It's super-easy at www.superpages.com.

SuperPages.com service from Verizon offers a number of online advertising options to help you get online and down to business. For more information, call **1-800-428-8722,** or log on to SuperPages.com to view advertising opportunities.

Verizon Information Services

Verizon Information Services is the world's leading print and online directory publisher and a content provider for communications products and services. A leader in linking buyers and sellers, Verizon Information Services' products and services include SuperPages.com, the Internet's preeminent online directory and shopping resource, and Verizon printed telephone directories, SuperPages. The company aggressively pursues national and global growth by offering customers comprehensive communications solutions that include bundled print and electronic commerce offerings.

With almost 20% of the worldwide market for directory advertising, Verizon Information Services provides sales, publishing and other related services for nearly 2,300 directory titles in 48 states, the District of Columbia and 15 countries outside the U.S. This includes nearly 1,600 Verizon SuperPages directory titles with a total circulation of approximately 106 million copies in the U.S. and 44 million internationally.

Verizon Information Services offers integrated print directory and Internet products/services to customers through the convenience of a single sales representative. With a U.S. sales force of more than 2,600 representatives, Verizon Information Services adds more than 1,000 new Internet customers each week. SuperPages.com receives as many as 12 million visits and 9 million unique visitors a month. SuperPages.com also powers directory services on MSN, InfoSpace, AltaVista, Excite, Lycos, Ask Jeeves, HotBot, BigFoot, Tripod and Angelfire.

ANY DIRECTORY, ANY TIME.

You can order any directory, any time of day, seven days a week by calling **1-800-888-8448** or find us on the Internet at **www.directorystore.com**

NOTES

"Out Of The Way - Less To Pay"

Don't go digging up trouble.

Before you do any extensive digging or construction on your property or public lands, please give your phone company a call. They'll let you know if you'll run into any of their telephone lines. All too often, private home owners and construction crews unintentionally dig up land where lines and cables are located. This sometimes results in costly damage or destruction. So let's work together to avoid needless disruption of telephone service in our community.

Call Before You Dig 1+800 242-1776

(You must give 72 hours advance notice excluding weekends and holidays, but not more than 10 calendar days.)

The following information will need to be provided by the customer:

- County, City
- Street name & number
- Caller's name and firm
- Can be reached phone No.
- Cross street
- Starting time and date
- Type of work & depth
- Firm Address

HOW TO HELP WITH YOUR CHILD'S HOMEWORK

if you can't read.

YOU TELL YOUR CHILD THE ONLY WAY TO LEARN IS TO DO IT YOURSELF.

Part of you wants to follow the natural instincts of every parent and help your child learn and thrive. The other part of you wants to hide the fact that you can't.

YOU TELL YOUR CHILD YOU DON'T UNDERSTAND "THE NEW MATH."

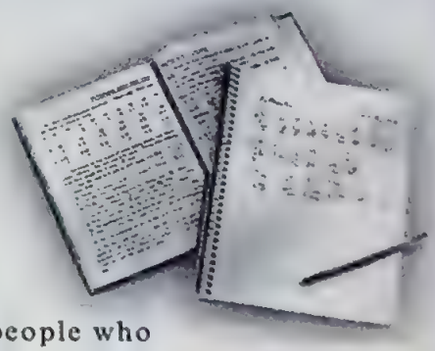
How long can you make excuses? Should you confess to your child that his or her reading level has already passed yours?

YOU TELL YOUR CHILD YOU HAVE A HEADACHE.

Should you continue to bluff and find ways around the problem, the way you've done since you were a kid yourself?

YOU TELL YOUR CHILD LIES.

Your fear is that your child will lose respect for you because you can't read. But is that any worse than the respect you'll lose when your child figures out you couldn't tell the truth?



Real-life situations like this are faced every day by people who can't read. They're embarrassed. They're regretful. And sooner or later, many of them become fed up enough to finally seek help. That's where you come in.

By becoming a literacy volunteer, you can change the lives of people who, for one reason or another, never learned basic reading skills. All that's asked of you is a small commitment of time. We'll do the rest by providing training, materials and introductions. To find out more, call Literacy Volunteers of America at 1-877-HELP-LVA. And help open the world for someone who can't read.

—LITERACY VOLUNTEERS *of* AMERICA—

1-877-HELP-LVA

Think of it as a form of pest control.

Call Block *from* Verizon.

Nothing eliminates annoying callers faster than Call Block, A SmartCall® Service from Verizon. If you're being called by someone you don't want to talk to, simply hang up. Punch three buttons. And say good-bye. Your phone will no longer accept calls from that number. Call Block from Verizon. It gets rid of the bugs in your life. Whoever they happen to be.

verizon Yellow Pages

"Every reasonable precaution is taken to avoid errors in and omissions from the telephone directory, but the Telephone Company does not guarantee listings therein and shall not be liable for damages arising out of errors in or omissions from the directory except as provided for in its filed Tariffs."

All listings and advertisements in the Yellow Pages reflect the business customer's representation to the Telephone Company. Reasonable care has been exercised by the Telephone Company in the compiling of these Yellow Pages as a buyer's guide for goods and services. Since there are many suppliers of the same or similar goods and services, the buyer should exercise prudent judgement when selecting the supplier. Investigate, compare and ask for endorsements. Verify the endorsements. If in your judgement the advertiser is in any way misrepresenting his firm, register a complaint with the business involved. If you still are not satisfied, call your local consumer complaint office or your local telephone company business office.

This section of the directory combines the listings in which the customer receives service.

Shouldn't Your Ad Last A Little Longer?

Verizon's SuperPages™ and SuperPages.com℠ offer a better way to advertise. SuperPages stands the test of time, and your ad is right where customers can find you when they're ready to make buying decisions. On average, every dollar spent in advertising in the Verizon SuperPages earns $21 in sales.[1]

SuperPages directories are found in more homes than any other single directory.[2] Fact is, roughly 60 percent of U.S. consumers use their directory at least once every week.[3]

What's more, SuperPages.com, the #1 online yellow pages, draws millions of surfers each month ready to buy online.[4]

Call today to find out how Verizon's SuperPages can turn the tide for your business. 1-800-555-4833

SUPERPAGES – Better Pages for Better Results.℠

1. Figures are averages based on Verizon Call Count Studies and Yellow Pages industry research. The results for your business may vary. 2. Claims based on studies where Verizon Information Services directories are printed and distributed. 3. YP Usage Study presented at YPPA 2000 National Convention. 4. I/PRO Audit Report, 3/01

The secret weapon
of serious shoppers.
Verizon's SuperPages.

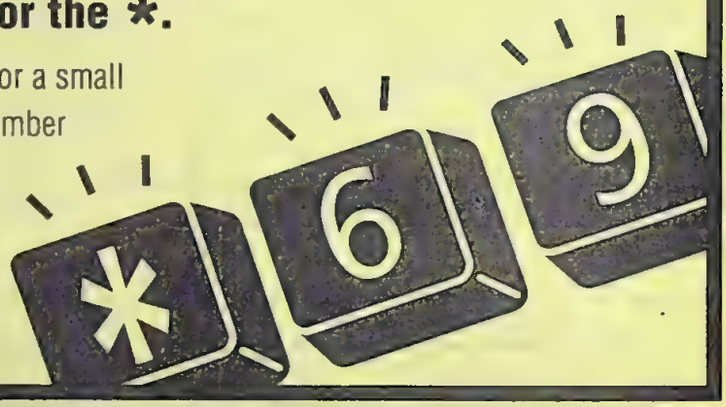
To know who just called, just reach for the *.

When you want to know who just called, just dial *69. For a small charge, the **Verizon *69** service tells you the phone number of the person who just called.



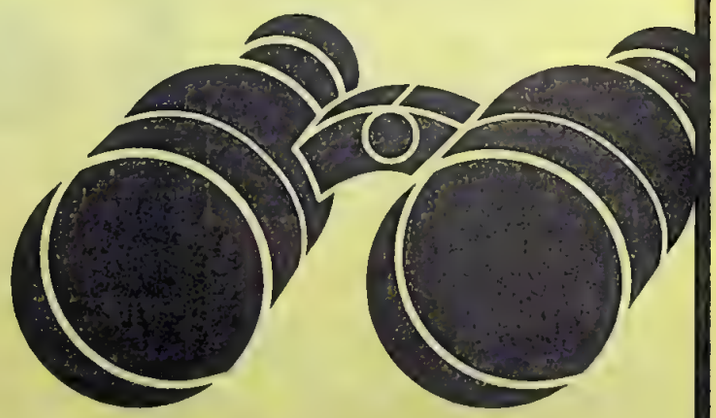
verizon

Charges apply Not available in all areas

Where do you plug into the best information about new phone installation?

In the **Customer Info Guide** near the front of this directory. It's also got information on billing, area codes, emergency preparedness, and more.

verizon



It's easy to see what makes our community great.

The **community magazine** at the front of this directory is a quick and easy guide to the best of our community. It includes a wealth of information for long-time residents and newcomers, too.

verizon

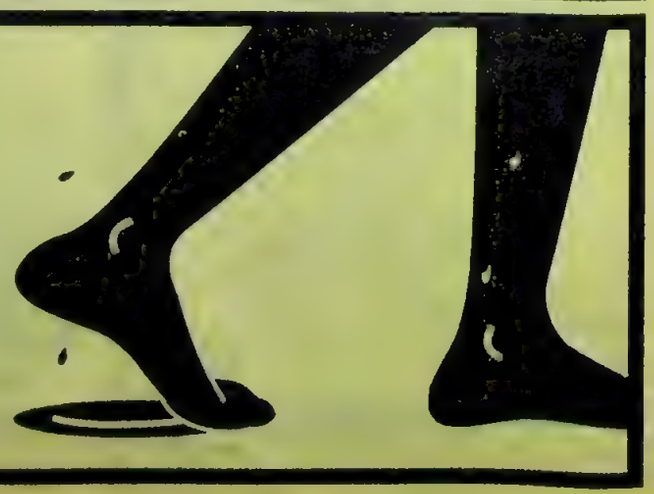
When people
are ready to buy,
make sure they can find you.
Advertise in
Verizon's SuperPages.

Didn't make it to the phone in time? Try ★69.

If you don't make it to the phone before the caller hangs up, just dial *69. For a small charge, the **Verizon *69** service tells you the phone number of the person who called you last.



verizon

Charges apply. Not available in all areas

Shouldn't Your Ad Last A Little Longer?

Verizon's SuperPages™ and SuperPages.com℠ offer a better way to advertise. SuperPages stands the test of time, and your ad is right where customers can find you when they're ready to make buying decisions. On average, every dollar spent in advertising in the Verizon SuperPages earns $21 in sales.[1]

SuperPages directories are found in more homes than any other single directory.[2] Fact is, roughly 60 percent of U.S. consumers use their directory at least once every week.[3]

What's more, SuperPages.com, the #1 online yellow pages, draws millions of surfers each month ready to buy online.[4]

Call today to find out how Verizon's SuperPages can turn the tide for your business. 1-800-555-4833

SUPERPAGES – **Better Pages for Better Results.℠**

1. Figures are averages based on Verizon Call Count Studies and Yellow Pages industry research. The results for your business may vary. 2. Claims based on studies where Verizon Information Services directories are printed and distributed. 3. YP Usage Study presented at VPFA 2002 National Convention. 4. UPRO Audit Report, 3/01

"Where can I find...?"

Where else?

Verizon's SuperPages!

Where do you plug into the best information about new phone installation?

In the **Customer Info Guide** near the front of this directory. It's also got information on billing, area codes, emergency preparedness, and more.

Notes

HOW TO HELP WITH YOUR CHILD'S HOMEWORK

if you can't read.

YOU TELL YOUR CHILD THE ONLY WAY TO LEARN IS TO DO IT YOURSELF.

Part of you wants to follow the natural instincts of every parent and help your child learn and thrive. The other part of you wants to hide the fact that you can't.

YOU TELL YOUR CHILD YOU DON'T UNDERSTAND "THE NEW MATH."

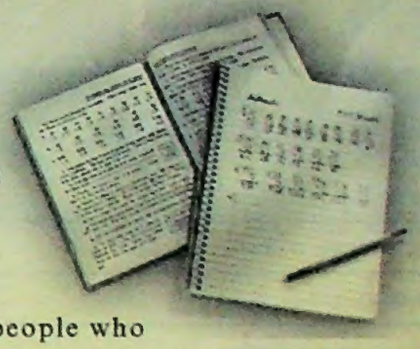
How long can you make excuses? Should you confess to your child that his or her reading level has already passed yours?

YOU TELL YOUR CHILD YOU HAVE A HEADACHE.

Should you continue to bluff and find ways around the problem, the way you've done since you were a kid yourself?

YOU TELL YOUR CHILD LIES.

Your fear is that your child will lose respect for you because you can't read. But is that any worse than the respect you'll lose when your child figures out you couldn't tell the truth?



Real-life situations like this are faced every day by people who can't read. They're embarrassed. They're regretful. And sooner or later, many of them become fed up enough to finally seek help. That's where you come in.

By becoming a literacy volunteer, you can change the lives of people who, for one reason or another, never learned basic reading skills. All that's asked of you is a small commitment of time. We'll do the rest by providing training, materials and introductions. To find out more, call Literacy Volunteers of America at 1-877-HELP-LVA. And help open the world for someone who can't read.
